

CLAIMS

1. A pleasure boat (1) including a cockpit (2), a swimstep (3) and a transom (4) separating the cockpit (2) from the swimstep (3), characterized in that said transom (4) is mounted to be mobile between a rear position in which the cockpit (2) has a maximum area and the swimstep (3) has a minimum area and a forward position in which the cockpit (2) has a minimum area and the swimstep (3) has a maximum area.

2. The pleasure boat as claimed in claim 1, characterized in that the floor (6) of the cockpit (2) and the swimstep (3) are aligned with each other.

3. The pleasure boat as claimed in either claim 1 or claim 2, characterized in that said transom (4) is mounted on at least one slide (7) disposed in the longitudinal direction of the boat (1).

4. The pleasure boat as claimed in claim 3, characterized in that the slide includes two longitudinal grooves (7) formed in the floor (6) of the boat (1).

5. The pleasure boat as claimed in claim 4, characterized in that the transom (4) includes two carriages (8) provided with rollers (9) adapted to be engaged in said grooves (7), the bottom of the grooves (7) forming a lower track for the rollers (9).

6. The pleasure boat as claimed in claim 5, characterized in that said grooves (7) each include an upper cover (13) so that said rollers (9) are contained between said lower track and an upper track.

7. The pleasure boat as claimed in any one of claims 1 to 6, characterized in that it further includes means (15, 16) for immobilizing the transom (4).

8. The pleasure boat as claimed in any one of claims 1 to 7, characterized in that a portion of the transom (4) is mobile relative to the remainder of the transom (4) to form a door (5) between the cockpit (2) and

the swimstep (3).

9. The pleasure boat as claimed in claim 8, characterized in that said door (5) is formed by a lateral end of the transom (4) attached to the remainder of the transom (4) by a hinge so as to open toward the interior of the cockpit (2).
